Subject: Region 8 RARE Fair & R2P2 Too - PLEASE RESPOND
Attachments: RARE R2P2 Fair - R8 recipients.xlsx

The Regional Science Council would like to host a "RARE Fair – and R2P2 Too" (name TBD) and your participation is key to its success. Our current thinking is that we would reserve the atrium for 2-3 hours and have the previous five years of Region 8 RARE and R2P2 recipients (list attached) present their research in a poster format. This will be a great opportunity to highlight the research conducted by the region as well as the programs available for ORD partnered research.

Please reply to this email by COB 4/12 to let me know if you are willing to participate, and if you have any questions. Once I have an idea of participants, I will send around a Doodle Poll to inform the date selection. For those of you not located in the Denver office, we would still love to highlight your research and we are willing to print your poster and set it up for display. For those of you in Denver, we hope you can be present to answer questions and discuss your research.

Thank you in advance for your involvement! The Regional Science Council is here to make this event easy for you. As we move forward, if you need help with your poster we can provide a suggested template and instructions on how to print it.

Thanks again,
Angelique & your Region 8 Science Council

Angelique D. Diaz, Ph.D., P.E.
Acting Deputy Director, NEPA Compliance and Review Program
USEPA Region 8 (EPR-N)
